Using the NELSON**NET**BOOK iPad app

Using the NelsonNetBook iPad app

This guide is to explain the functionality of the NelsonNetBook iPad app.
For assistance in downloading and installing the free NelsonNetBook iPad app please refer to the separate documentation.

Please Note: In order to sign into the NelsonNetBook iPad app you must first have a NelsonNet account. To do this go to www.nelsonnet.com.au or consult the separate documentation.
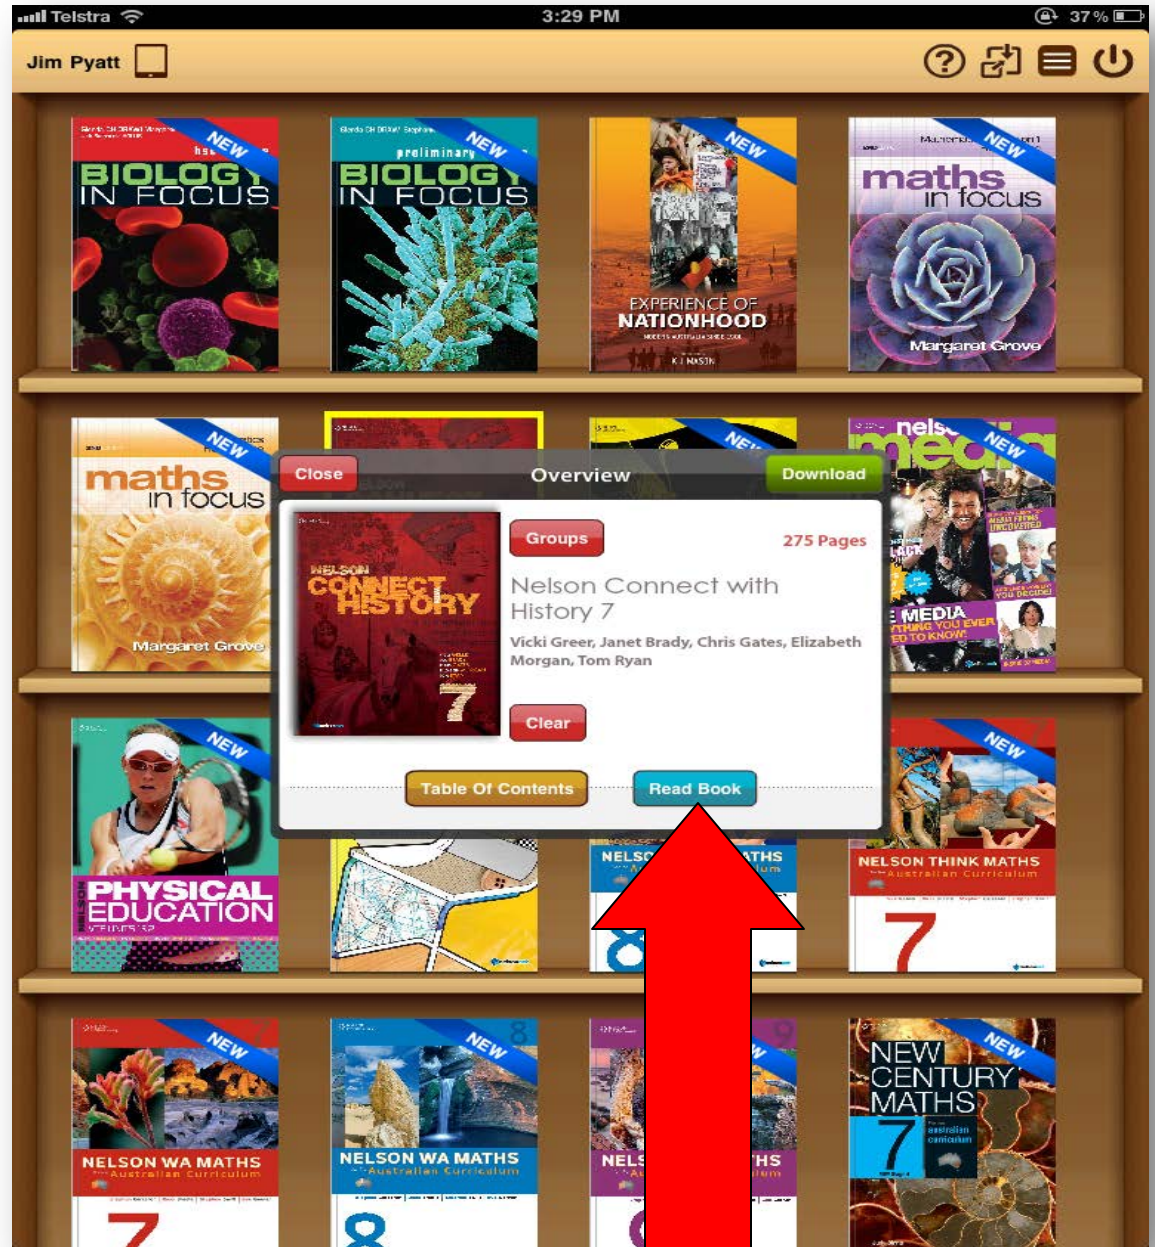

The Bookshelf

After signing into the NelsonNetBook iPad app you will automatically be taken to your bookshelf. You will be able to see all of the eBooks that you have access to.

Reading your eBook

To access the eBook simply press the cover of the desired title from your bookshelf and select "**Read Book**"

Navigating the eBook

To flip pages simply swipe the screen. Alternatively you can access the table of contents by selecting the "**Table of Contents**" icon at the top of the screen.

You can also enter the desired page number in the box at the bottom left of the screen or simply select the arrows on each side.
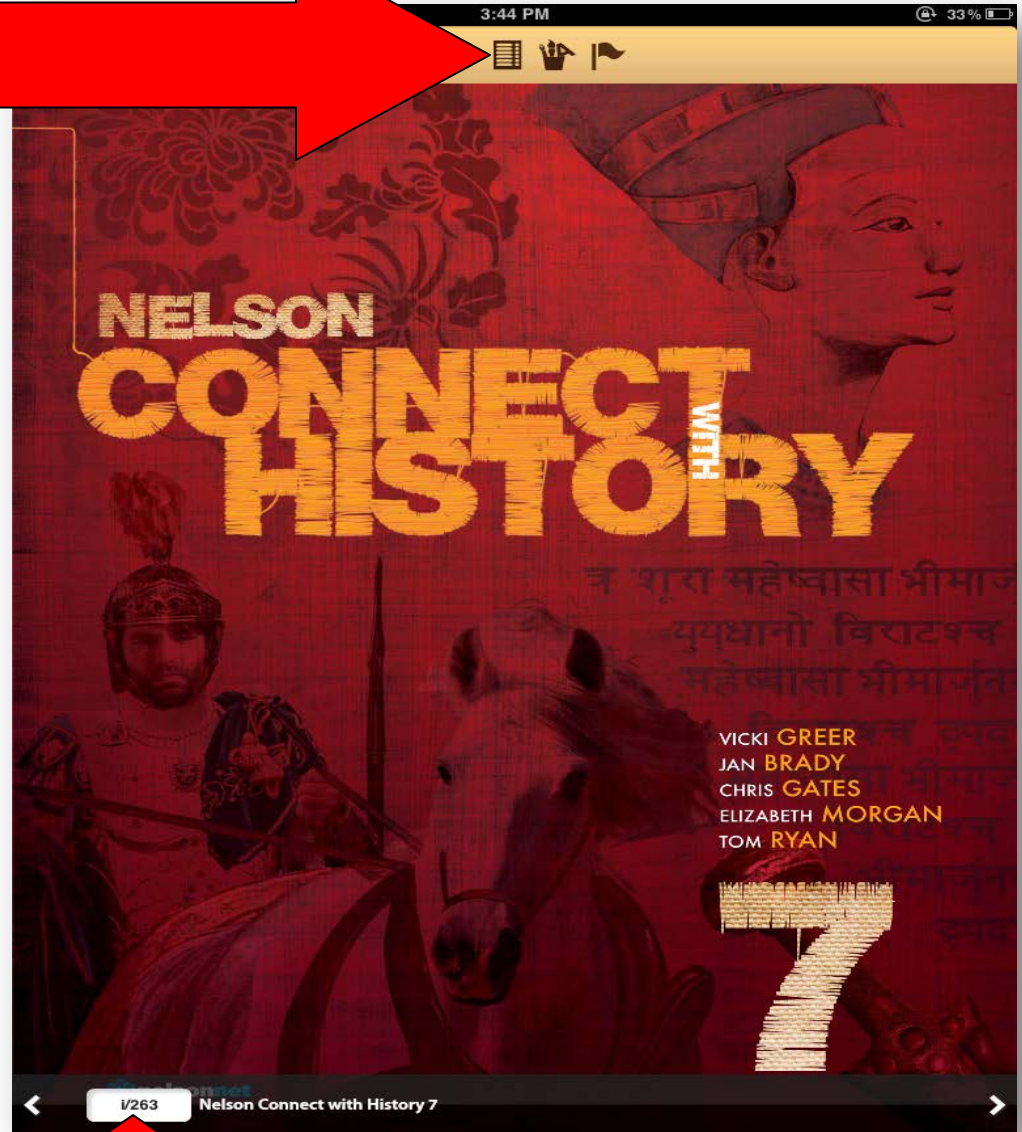

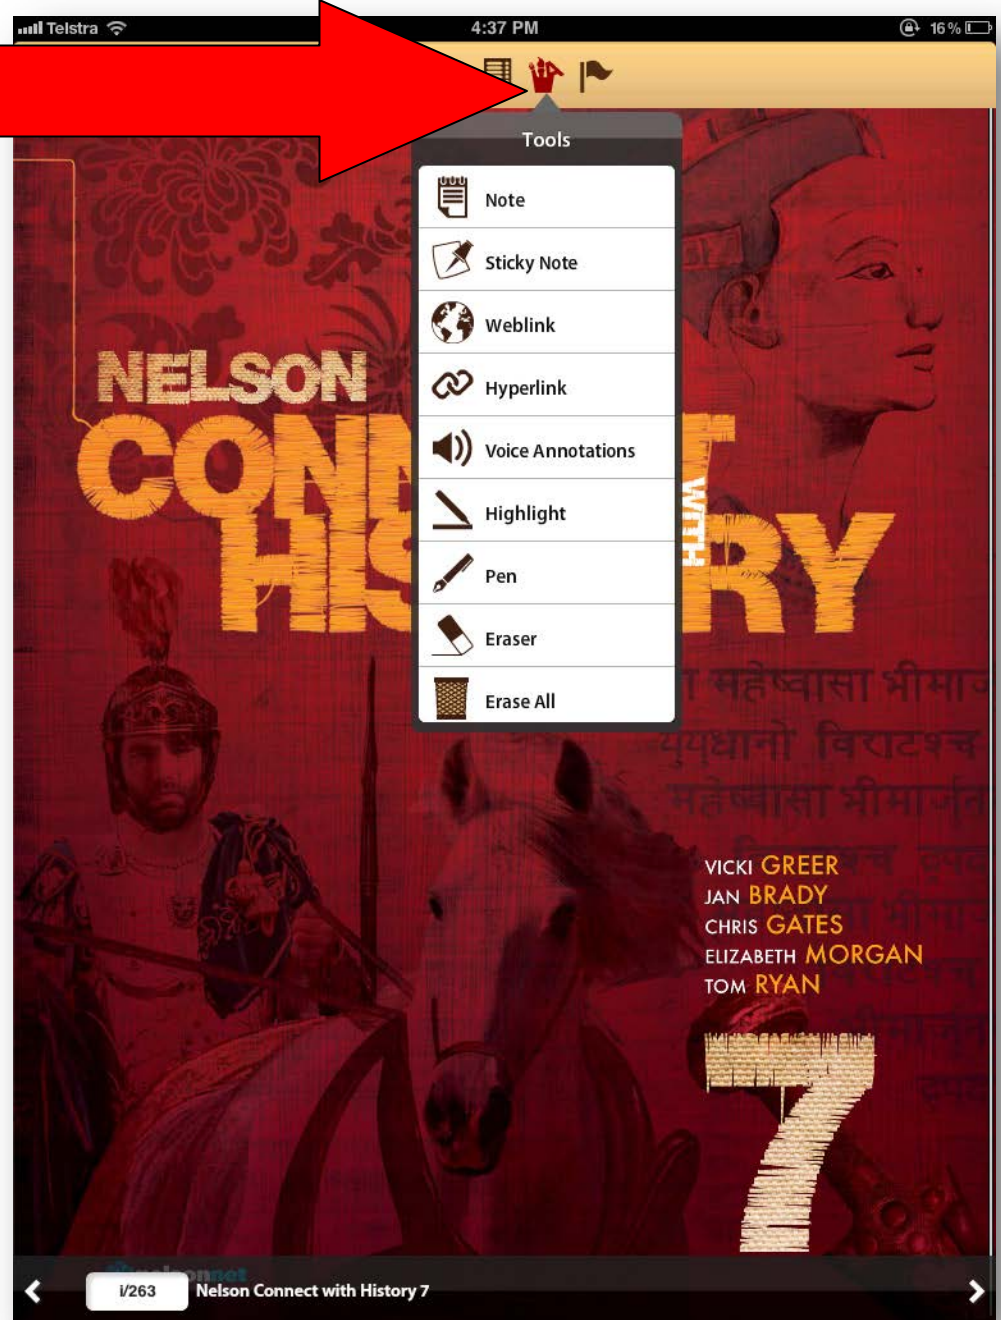

Accessing the Tools Menu

To select the Tools menu simply select the
"**Tools**" icon on the top.

In the **Tools** Menu you can.

- Add **Notes** to your eBook
- Add **Weblinks** to your eBook
- Add **HyperLinks** to your eBook
- Add **Voice Annotations** to your eBook
- Highlight Text and use the **Pen** Feature

Downloading an Offline Version of an eBook

Downloading an eBook allows you to read the eBook without the need to stream the content from the internet.
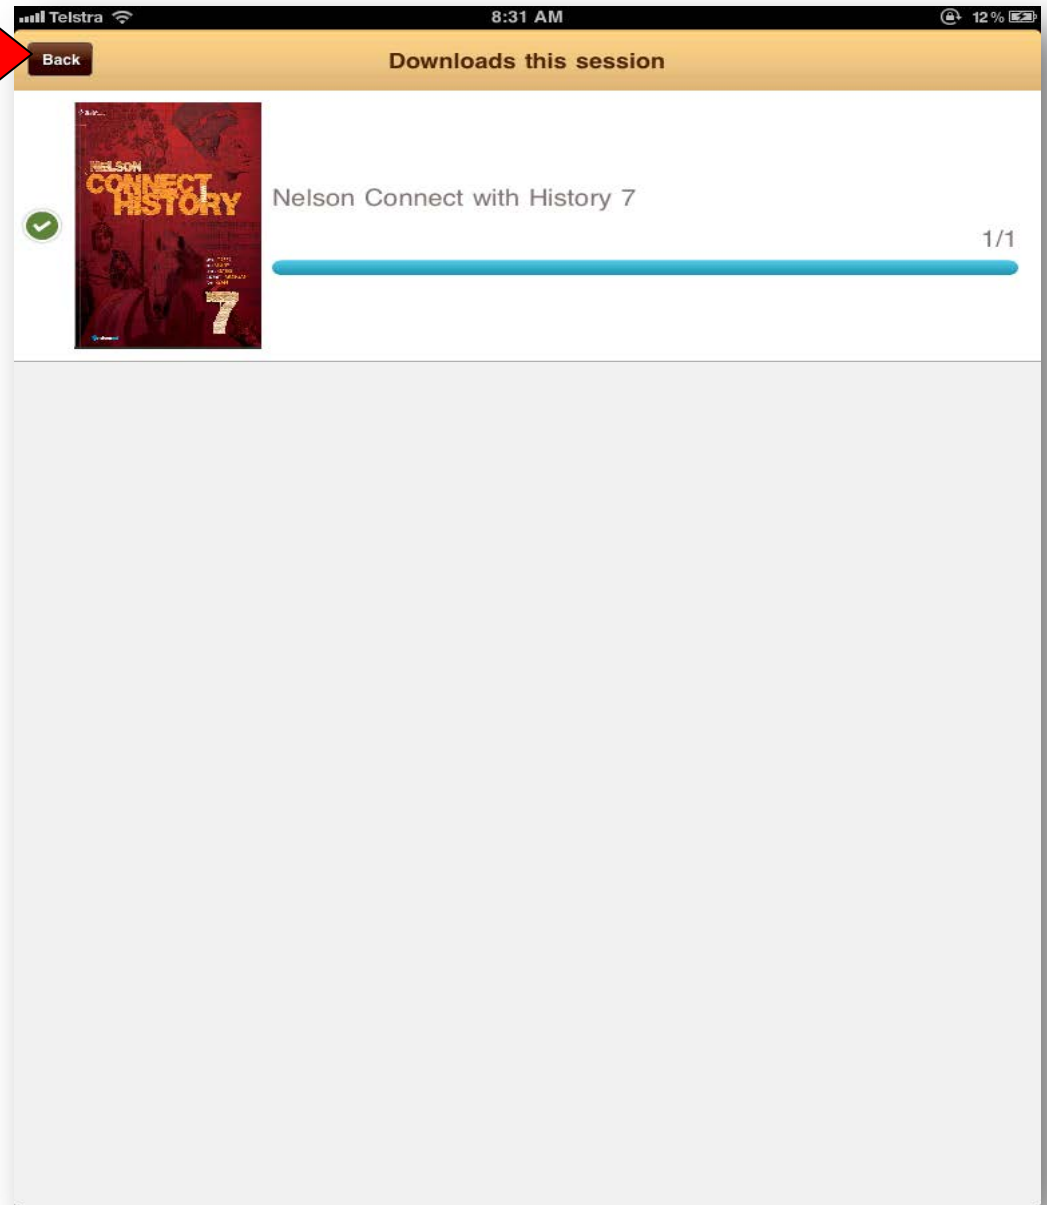

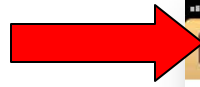

Please Note: While you can read a downloaded eBook offline you will need to be online in order to sign into the NelsonNetBook app.
This is so that we can validate you as a NelsonNet customer.

To begin Downloading an eBook simply select the title from your Bookshelf and select "**Download**"
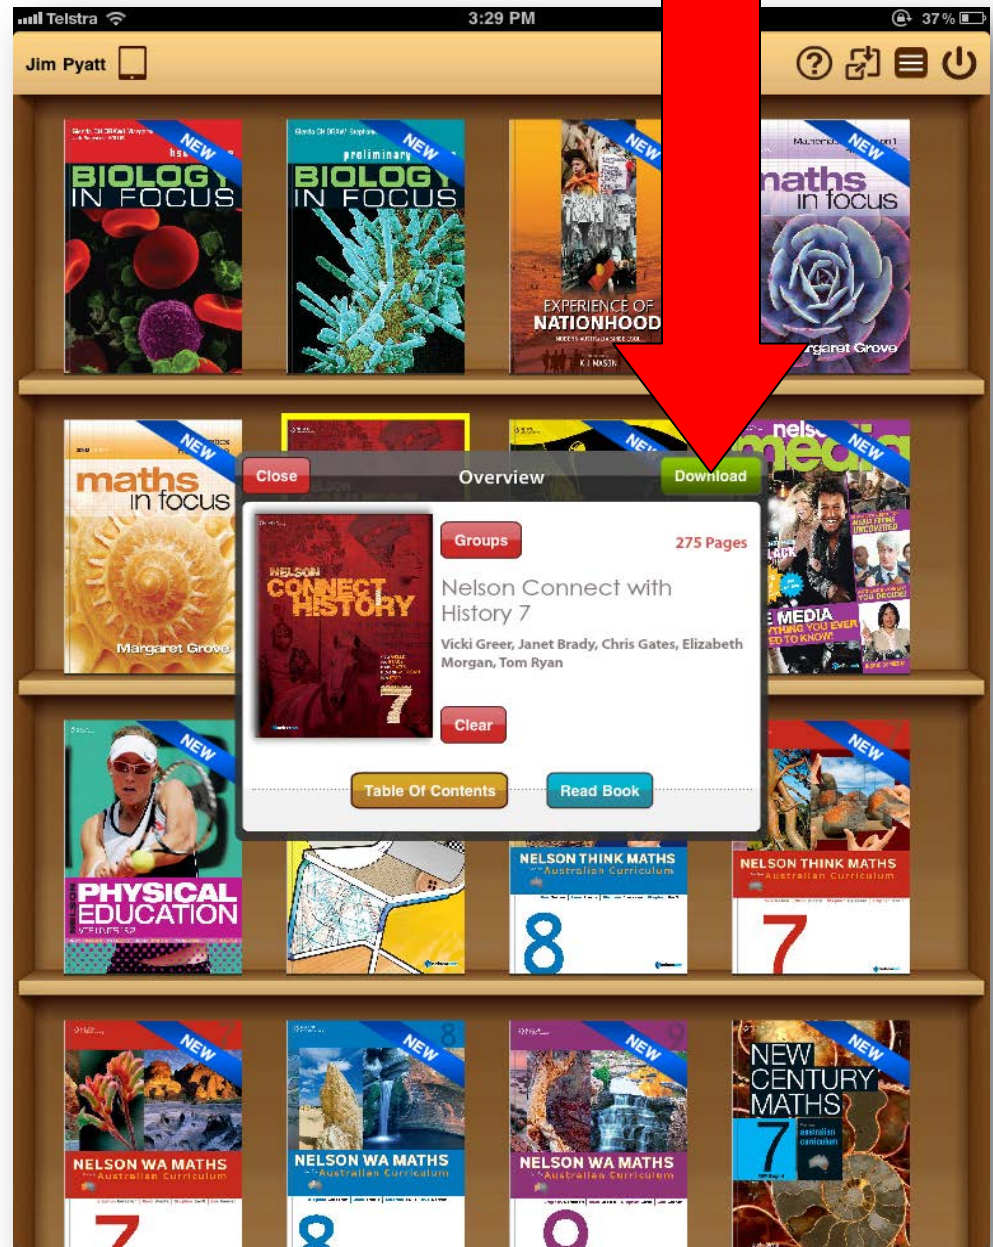

**Downloading an Offline Version
of an eBook**

After the eBook has completed downloading
simply select "**Back**" to return to your
bookshelf.

Nelson Connect with History 7

Accessing "Hotspots" from your eBook

Throughout your eBook you will have various "Hotspots". Selecting these will allow you to access various resources such as.

- Weblinks
- Worksheets
- Skill sheets
- Quizzes
- Puzzle Sheets
- Interactives
- Fact sheets

To access these simply press the desired resource.

Please Note: You must be online in order view hotspots.

Using "My Groups" on the NelsonNetBook

My Groups are a great way to share annotations with your students.

To access groups simply select the title from your bookshelf and press **"Groups"**

Please Note**:** You will need to have a NelsonNet Teacher account in order to create a group. Students will only be able to **"Join"** a group.
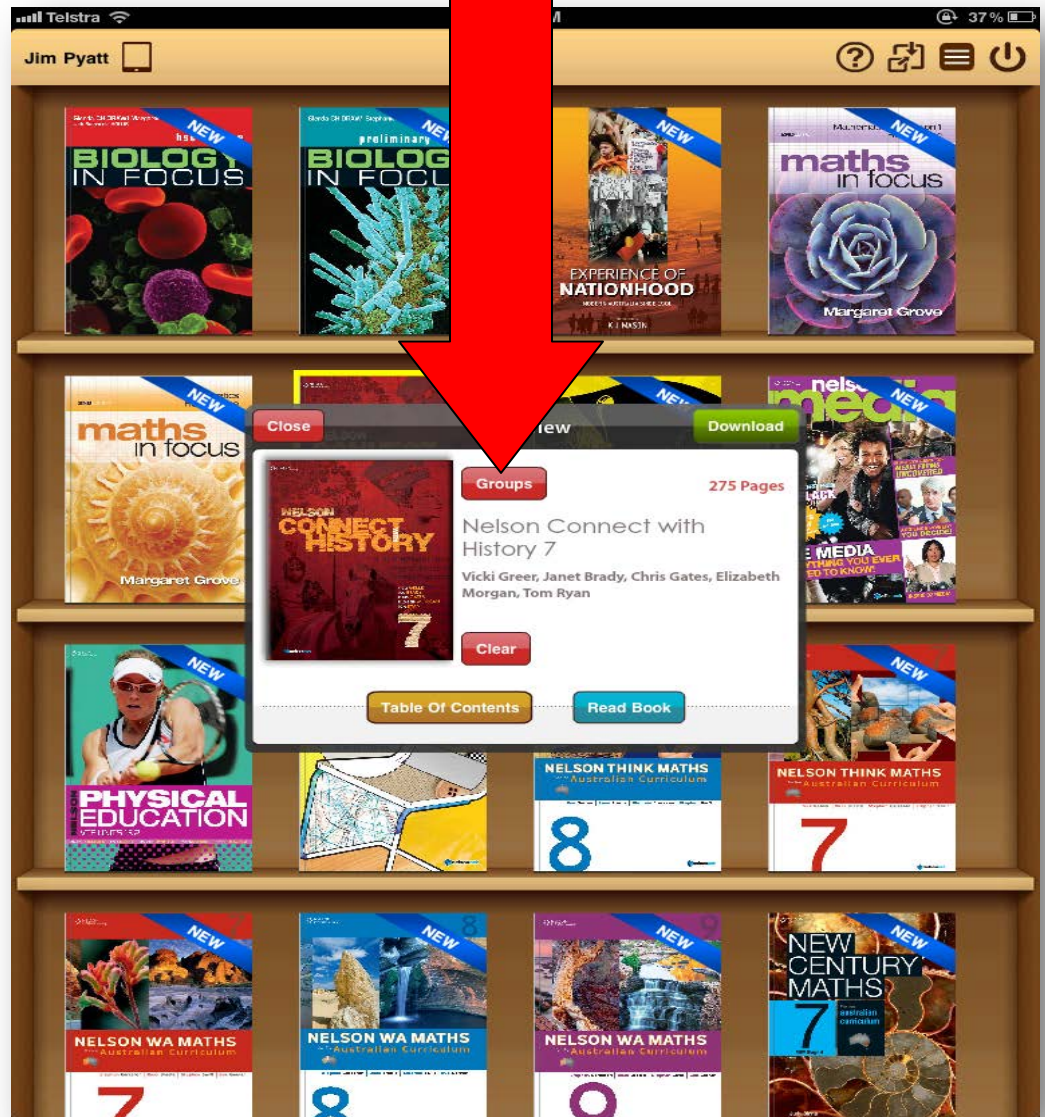

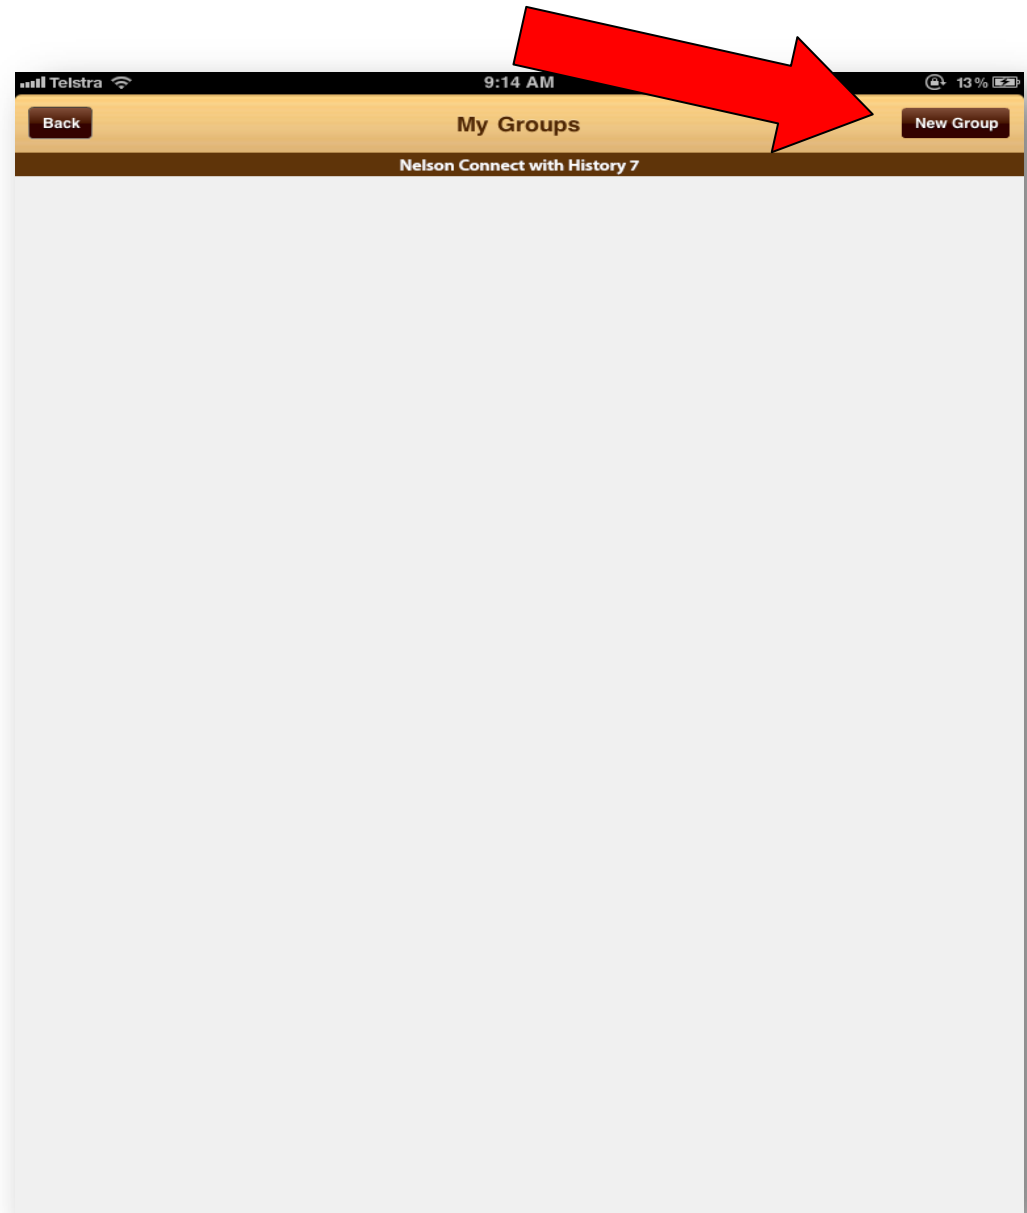

Using "My Groups" on the NelsonNetBook

On the "My Groups" screen you will be able to access groups you have created as well as create new groups.

Creating a new Group
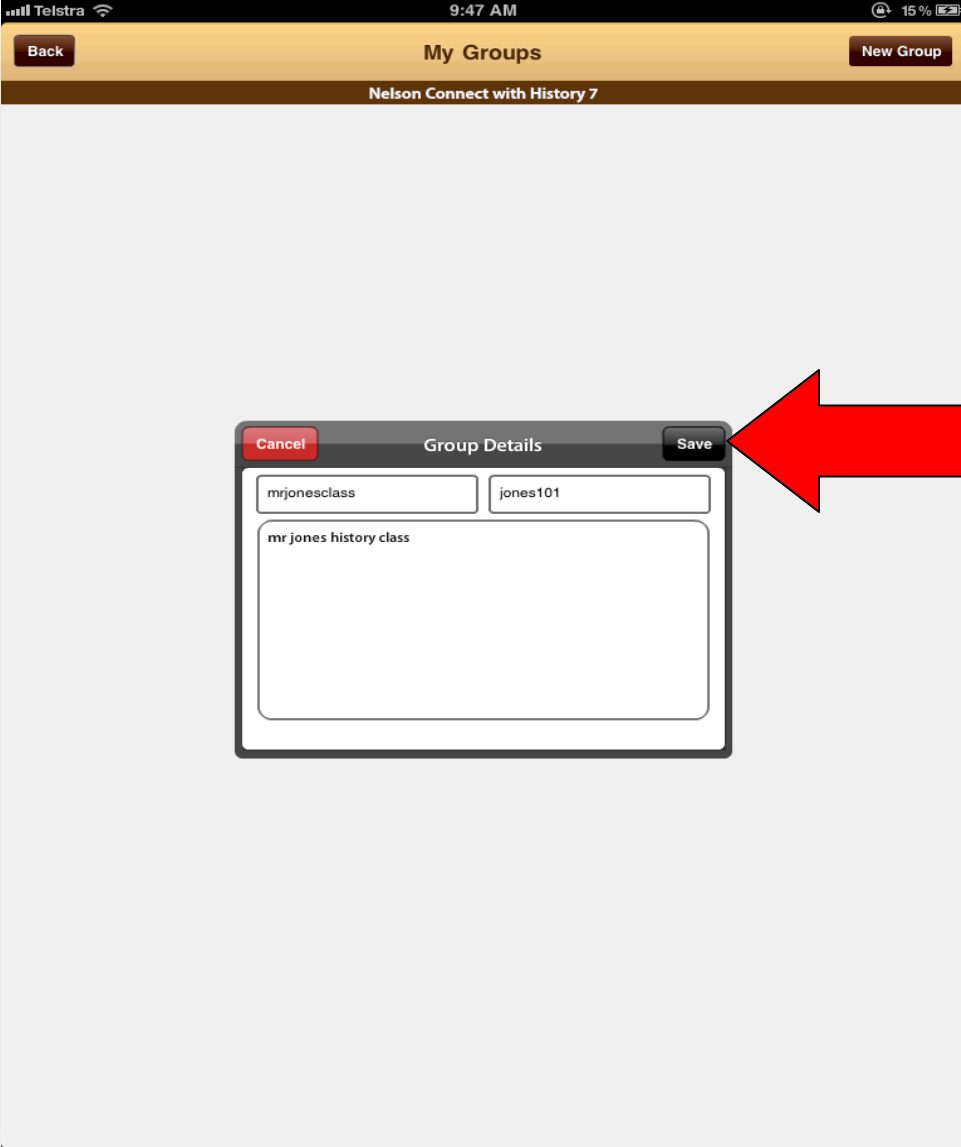

To create a new group press "**New Group**"

Creating a new Group

In the Group Details box enter a group title,
group code and group description.

After entering these details click "**Save**"

Creating a new Group

Your created group will now in appear in

"My Groups"

How Students Join your Group

Students access groups the same way a teacher
would by selecting the title from their
Bookshelf and selecting "**Groups**".

How Students Join your Group

On the "My Groups" screen the Student simply needs to select "**Join**"

How Students Join your Group

After selecting "**join**" the student needs
to enter the group code that you created and
press "**Join**"

This will assign the student to that group.

Sharing annotations with your Group

By default the annotations that you make on your eBook such as Notes, voice annotations and weblinks will be shared with all of your groups.

To change which groups you would like to share annotations with, select the "**Settings**" icon from the eBook.

If you would not like to share annotations with a particular group simply switch the tabs to the "**off**" position and save.
